

# Nederland Fire Protection District

*Fire Marshal Board Report – June 2026*

## Permits & Inspections:

Permitting and inspections have been fairly busy the past month, here's a summary:

20 permits submitted

27 plan reviews completed

12 inspections completed

I've been working closely with Boulder County Planning to address access and/or emergency turnaround issues with several homes in the district. Many are applying or reapplying for short-term rental permits with the county. I'm very pleased that their plan reviewers are catching the issues and bringing the complicated ones to our attention.

## Compliance & Investigations:

Two thorough fire investigation reports were completed and submitted to BCSO.

## Projects:

### **Town Fire Code Adoption -**

The 2024 IFC with amendments was adopted by the Board of Trustees for the Town of Nederland. The amendments mirror the District's adoption and we're very pleased with the amount of work that went into getting this done. It took over a year to get this finalized; many thanks to Community Planner Britt DeMinck, Town Attorney Jennifer Madsen, Safe Built, and all the others who helped get this completed.

### **Training –**

I completed 6 hours of training for updates to NFPA 1033 and 921.
