Attn: Charlie Schmidtman, Fire Chief
Re: Ram 2500

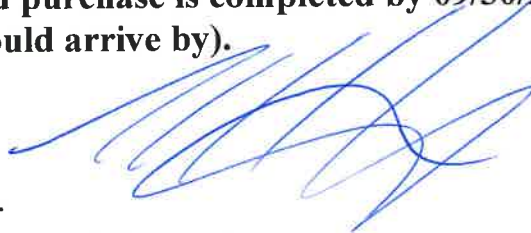

Chief Schmidtman,

Per your request, government price quote for a **Ram 2500 Tradesman:**

1. 2025 Ram 2500 Tradesman Crew Cab, 6'4" Bed (see attached sheet for list of vehicle equipment), per City of Colorado Springs Contract #R0100352024, piggyback provision; **\$48,790.00**
2. Trade-in value for a 2022 Chevy Silverado 2500 WT (VIN ending in NF207717); **-\$30,000.00****

Total, \$18,790.00 FOB

****Trade-in value is guaranteed as long as vehicle is in same condition as when it was seen on 03/03/2025, miles not in excess of 45,000, and purchase is completed by 09/30/2025 (estimate date that new vehicle should arrive by).**

Blind Spot and Cross Path Detection (XAN)

Image not available at this time. Please try again later.

Blind Spot Monitoring[1] (BSM) with Tag Trailer and Rear Cross Path Detection[2] (RCPD) uses sensors to detect other vehicles. BSM alerts you if a vehicle is traveling in one of your blind spots, while RCPD warns you of vehicles crossing your path when backing up. The dual wide-band radar sensors in the taillamps scan blind spots to help you maneuver safely while automatically sensing and accounting for the length of your trailer.

1. Always check visually for vehicles prior to changing lanes.
2. Always check entire surroundings visually before proceeding.
