

Community Visioning Workshop: Reimagining Wildfire Resiliency in Nederland

Join us for dinner along with free child care September 1st from 5:30-8pm, location in Nederland TBD!

CU Boulder graduate students in partnership with local organizations are helping to update Nederland's Community Wildfire Protection Plan this year. We want to ensure that community values are placed at the forefront of the process and want to hear from you! This workshop will allow community members to envision what a wildfire resilient future in Nederland might look like. Please be sure to register so we can order enough food for everyone!
