

Application Process

Follow these easy steps to apply for a National Registry examination:

1. Create your account/log in to your profile.
2. Create an application - Select the EMT level. Verify your personal information and make any necessary changes. Then, follow the prompts through the application process.
3. Pay the application fee. [Click here](#) for our complete payment policy.
4. Monitor the progress of your application from your "Certification Application Status" in case additional actions are needed. Once the National Registry approves your application and your status is "Ready to Test," you can view your ATT letter and contact Pearson Vue to schedule your examination.

We are Training Center E149-P University of Colorado Hospital Authority. Text me or email when you have completed your account so we can get in there and approve you.
